## Spotlight on vinyl.

Facts you may not know...

Vinyl is durable and requires little maintenance. These factors make it the most common plastic used in the built environment. You'll find vinyl in wall covering, windows and doors, flooring and carpet, electrical insulation, pipes, fences and decks, cladding, and roofing. The uses are endless. The reasons are sound.

Flooring: *LSI - Granite, Ebony Pearl*  
Wall Covering: *Maharam - Indent, 015 Sculpt*
